

## STUDENT MOBILITY BUDGET CALCULATION FOR CIVIS ACTIVITIES

- Travel costs and individual support for student short term and blended mobility activities are based on unit costs applying as an internal rule to all the beneficiaries.
- These unit costs are based on Erasmus+ 2020 program guide and are the following:
  - Travel costs based on the travel distance per participant: travel distances must be calculated using the distance calculator supported by the European Commission ([http://ec.europa.eu/programmes/erasmus-plus/tools/distance\\_en.htm](http://ec.europa.eu/programmes/erasmus-plus/tools/distance_en.htm)).
  - The distance of a one-way travel must be used to calculate the amount of the EU grant that will support the round trip.
  - Individual support based on the duration of the stay per participant (if necessary, including also one travel day before the activity and one travel day following the activity).

Travel costs:

Travel distances <sup>34</sup>	Amount
