The National and Kapodistrian University of Athens (NKUA) is an active member of CIVIS, an alliance of leading universities across Europe. It is host to the [Department of History and Philosophy of Science \(HPS\)](#), which admits no less than 100 undergraduate students per year since 1994-95 and has awarded 150 doctoral and over 500 Master's degrees. The members of the HPS/NKUA academic community consider CIVIS a crucial initiative for strengthening European integration in higher research and education, and aspire to actively support it. We therefore plan an Open Workshop to discuss opportunities for collaboration with other CIVIS-affiliated departments and individual colleagues who share with us the interest in the study of science and technology from the perspective of the humanities, the natural and the social sciences.
