

# LAUNCHING OF THE CIVIS GEOCHRONOLOGY NETWORK (CGN)

**First CIVIS Seminar series in Geochronology for Graduate students**

**Aix en Provence (France) – 15<sup>th</sup> & 16<sup>th</sup> September 2022**

### Applicants:

Master & PhD students from Aix Marseille University (Fr), Sapienza University (It), Université Libre de Bruxelles (Be) and Tubingen University (De)

### Objectives:

- Develop skills in geochronology including techniques such as radiocarbon dating, tephrochronology and thermochronology (theoretical knowledge and examples of applications)
- Visit lab facilities dealing with geochronology methods at CEREGE (Aix Marseille Université)

### Additional Benefits:

Gain access to an international network (academics, engineers and technicians, students....) to acquire a unique expertise in geochronology

### Organisation:

The « summer school » will include 4 lectures by academics of the Civis Geochronology Network in the morning and in the afternoon you will visit the CEREGE lab facilities dedicated to geochronological studies.

### Participation Costs:

**It will be free to attend the seminar series. CIVIS will also cover the travelling and accommodation costs for up to 5 students per university.**

### **How to apply:**

Please send your application (1-page motivation letter and CV in English) to the CGN representative at your university by July 31<sup>st</sup>.
