University

Feedback from Hub 1 after first call

"If I had one work of advise for future calls is make them more "concrete" – in terms of funding needs, partnerships and so on."

Two kinds of initiatives:

1. activities which are "**ready to go**" provided that they comply with the "must be fulfilled" criteria below. For these activities we can offer **CIVIS branding, networks and support** as well as **student and staff mobilities**.
2. activities which are at the "**planning stage**". These are activities for which planning is needed for a proposal to be formulated for submission to a later call. For these activities we can offer **CIVIS networks and support** as well as **staff mobilities** so that members can meet (virtually or physically) to exchange ideas.

Feedback and report from Hub 1

Two kinds of criteria

The following criteria must be fulfilled (Eligibility criteria):

- Activities must involve 3 or more CIVIS partner universities.
- Activities must be directly relevant to the Hub 1 theme: climate, environment and energy.

The following criteria will be prioritized (Evaluation criteria):

- Virtual activities (for environmental reasons).
- Transdisciplinary challenge-based activities.
- Civic engagement initiatives tied to Open Lab (WP3) activities.
- Academic initiatives for which Mediterranean/African partners have been identified with assistance from WP5.
- Academic initiatives which also stimulate research collaboration.
